

Dennemeyer is a leading Intellectual Property (IP) Service Provider with more than 50 years of experience offering the broadest range of IP services globally. Prestigious corporations and law firms are placing their trust in our tailor-made solutions: high-quality Portfolio Services (Patent Annuities, Trademark Renewals), IP Consulting and cutting-edge Software Solutions. Working in unison with Dennemeyer & Associates, an international law firm specialized in IP, we offer a worldwide single point of contact for the full range of IP services.

In order to continue the company's expansion, we are currently recruiting for our headquarters in Howald, Luxembourg an

IT Software Specialist (f/m)

Patent Annuities Department

Your tasks:

- Accomplish software code writing tasks, including:
Customization of internal proprietary software based on VBA and C# as well as commercial desktop applications (e.g. MS Office, Access, Outlook, Explorer, Navision);
Generation of data import/export routines from other software applications and databases;
Analysis of process & business workflows and translation into amendments or new algorithms to existing program code;
- Analyze, understand, propose and implement software and general IT solutions to internal & external client requests;
- Generate reports and present them to internal & external clients;
- Constantly expand knowledge and expertise in programming languages in order to contribute to future software migrations (e.g.: .NET);
- Meet deadlines and deliver quality results.

Your profile:

- Degree in Informatics or a similar degree;
- Profound knowledge and several years of experience with MS SQL Server, relational databases and SQL queries, VBA and C# programming, HTML and developing applications with MS Access;
- Strong spoken and written English (German and/or French language skills - advantageous);
- Very good command of MS Office;
- Excellent analytical skills and aptitude for problem solving;
- Determined to understand Intellectual Property processes in order to be able to program the proposed workflow or new features in a software amendment or new algorithm;
- Precise and autonomous working style with a critical mind-set and willingness to learn;
- Service-oriented towards internal & external clients and team members.

We offer you:

- A motivating remuneration package;
- Intensive trainings delivered by our top specialists;
- The opportunity to develop a long-term career in an international environment with an international software vendor and service provider.

We are continuously aiming at developing the quality of services offered and we encourage our colleagues to bring their contribution to the business. Dennemeyer offers a friendly, welcoming working atmosphere in which sharing of ideas is valued. Join us and become part of a company culture that nurtures talent and performance!

If team spirit and initiative are amongst your most prominent strengths and you feel motivated to develop a long-term career in a multicultural work environment, **please apply in English via e-mail at jobs@dennemeyer.com** (Human Resources contact person: Mrs Gabrielle Wagner), stating clearly the title of the position in the subject.

Dennemeyer is a Luxembourg-based group of companies with worldwide presence.
